Child and adolescent care

COLOUR

Plum to indigo, from your *gradient*

Red and peach come from the logo. Red is kept for the logo and emergency notices. Peach is only used as a soft glow, never for text.

Keep things *simple*

Care that is planned around you

Diabetes complications screening

High blood sugar over years can quietly affect the small blood vessels of the eyes, kidneys and nerves. Found early, much of it can be slowed or treated.

03 / HOW WE CAN HELP

01 / WHY NIRAMAY

Facts, not *claims*

Glass cards sit over a soft tint and peach glow so the blur is visible. They lift on hover.

20+ years of specialist practice

Each of our doctors has more than two decades of clinical experience.

Trained for what we treat

Diabetology with a Netherlands fellowship. Adolescent paediatrics and clinical psychology.

Tests under one roof

Laboratory, 2D Echo, ECG, treadmill test, retinal photography and body composition.

Diet advice you can follow

Meal plans built around your home food, routine and family cooking.

Care that continues

Planned follow-ups, with results and prescriptions kept together.

Easy to reach

Lab open 7 am to 7 pm, home sample collection, lift and wheelchair access.

Tabs switch the service group; the row scrolls sideways with snap. Line icons stand in for the 16 still-life arch photos still to be created.

Diabetes and Metabolic Heart Child and Teen Lab and Pharmacy

Long-term care for diabetes, prediabetes, thyroid, blood pressure and weight, with complication screening built in.

Diabetes care

Eye screening

Weight management

04 / YOUR FIRST VISIT

The step tracker, from *Automize*

On the site this follows your scroll. Here, click a step or scroll the page.

01

Book

Book

Call, WhatsApp or send a request. We confirm your time.

02

Arrive and register

Bring old reports and your medicines. Our staff check weight, waist and blood pressure.

03

Consultation

Your doctor takes a full history, examines you and explains what they find.

04

Tests, if needed

Blood tests, ECG, Echo or eye screening, mostly done the same day.

05

Your plan

Targets, medicines and diet in writing. Collect medicines from our pharmacy if prescribed.

06

Follow-up

We book your next review so progress is tracked.

Centred *carousel*

Side cards fade and tilt; the active dot widens into a pill. Use the arrows, the dots, or swipe.

screening

irst, medicines when
cks for eyes, kidneys, feet

Thyroid disorders

Simple blood test, steady treatment

Underactive or overactive thyroid, thyroid in
pregnancy, and thyroid problems alongside
diabetes.
